#### **I. Uses and Disclosures for Treatment, Payment, and Health Care Operations**

I may **use** or **disclose** your **protected health information (PHI)**, for **treatment, payment, and health care operations** purposes with your **consent**. To help clarify these terms, here are some definitions:

**"PHI"** refers to information in your health record that could identify you.

#### **"Treatment, Payment and Health Care Operations"**

**Treatment** is when I provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be when I consult with another health care provider, such as your family physician or another mental health practitioner.

**Payment** is when I obtain reimbursement for your healthcare. Examples of payment are when I disclose your PHI to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.

**Health Care Operations** are activities that relate to the performance and operation of my practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination.

**"Use"** applies only to activities within my practice group, such as sharing, employing, utilizing, examining, and analyzing information that identifies you.

**"Disclosure"** applies to activities outside of my practice group. Such as releasing, transferring, or providing access to information about you to other parties.

#### **II. Uses and Disclosures Requiring Authorization**

I may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An **"authorization"** is written permission above and beyond the general consent that permits only specific disclosures. In those instances when I am asked for information for purposes outside of treatment, payment and health care operation, I will obtain an authorization from you before releasing your psychotherapy notes. **"Psychotherapy notes"** are notes that I have made about our conversation during a private, group, joint, or family counseling session, which I have kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation in writing. You may not revoke an authorization to the extent that (1) I have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer to the right to contest the claim under the policy.

### **III. Uses and Disclosures with Neither Consent nor Authorization**

I may use or disclose PHI without your consent or authorization in the following circumstances.

**Judicial or Administrative Proceedings:** If you are involved in a court proceeding and a request is made for information about your diagnosis or treatment and the records thereof, such information is privileged under state law, and I will not release information without the written authorization of you or your legal representative, or a subpoena or a court order. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.
